

THE COMPASSION TOUR – Harstine Island

What If Doing Something For You Changed A Life?

Are you ready to share in something bigger than yourself?

A Weekend At The Farm House On Harstine Island

A wonderful weekend of personal development, growth, awareness, and discovery. This small group dynamic gives individuals the opportunity to address the challenges and issues that are going on in their life. We will look at the different ways and places that judgment shows up in our life, and how to clear it away. We will look at how implementing compassion in our everyday life to open the doors to bringing forth the life that we desire. This is a great way to learn how to improve all areas of your life including but not limited to relationships – intimate, friends, family, business, finances – improving job situations, creating new opportunities, building your own business, developing your own personal self and well-being. We will be working with affirmations, meditations, perception developing questions..
